### 1. CURRENT SITUATION:

#### A. BACKGROUND:

There were two waves of widespread severe weather on April 27, 2011. The first moved through during the early morning hours across northern portions of central Alabama producing widespread damaging straight line winds and isolated tornadoes. The second wave involved numerous supercell thunderstorms and produced long lived, strong to violent tornadoes across the northern two-thirds of central Alabama. There was widespread and catastrophic damage in several locations throughout the State.

##### Curfews:

- The City of Tuscaloosa in disaster footprint from 10:00pm-6:00am.
- Cullman, Limestone, Madison and Morgan Counties in disaster footprint from 8:00pm-8:00am.

#### C. IMPACT ON BUSINESSES:

- Numerous reports of businesses damaged or destroyed throughout the state. Numbers pending at this time.
- Kroger, food safety specialist, plan of action is as follows:
  1. All perishable food coolers have been roped off and stores have been informed not to sell to public.
  2. No stores encountered structural damage, only loss of electricity.
  3. Dumpsters have been contracted to bring in for disposal of perishable foods.
  4. Security has been hired to guard dumpsters from theft or dumpster divers.

5. Generators are being brought in to restore power so stores can open pharmacies and dry good areas.
- Publix Stores
    1. All stores in Alabama are open and did not suffer any structural damage
    2. They are not offering any fresh products at this time
    3. They have additional generators en route and plan on resuming full operations once power is restored

#### D. UTILITIES:

##### ▪ **POTABLE WATER/SEWAGE TREATMENT SYSTEMS:**

AL Rural Water Association EMC has done an excellent job of helping fill generator requests that have come in from communities throughout North Alabama. As requests for back-up power generators increases, we will have to depend more heavily on resources that are available from the ALNG, from the USACE and from Garner (a contractor). USACE personnel are now represented in the SEOC, generators are being staged at Maxwell AFB and assessment teams are now available to assist communities with their generator needs. Garner personnel are now represented in the SEOC, generators are being staged at John Hunter Park in Huntsville, AL with hook-up and re-fueling teams are available.

##### ▪ **ELECTRIC POWER:**

###### AL Power Company

Total Customers: 1.487 mil

Peak Out: 412,000

Current Out: 45,000

Restoration Plan: Internal and external personnel working disaster issues in Alabama total 8,670! 95% of all APC customers will have electrical power by Wednesday P.M.

###### AL Rural Electric Association

Total Customers: 542,402

Peak Out: 232,000

Current Out: 125,269 at last report (23.1% of their customers)

Restoration Plan: Internal and external personnel working disaster issues in Alabama total 930. The loss of power to many AREA customers is directly related to the loss of TVA transmission lines.

###### TVA / AL Electric Cities

Majority of customers will be back on line in 2 to 3 days, however some customers will be without power for 5 to 8 days due to heavily damaged TVA towers and transmission lines. Some co-ops and municipal owned utilities are in good shape and waiting on power from TVA. Total current outages within TVA's service area now stands at 211,413. There are 4,000 internal and external personnel working TVA related issues in Alabama.

### Critical Facilities Without Power

- Blount: County EMA is w/o Internet
  - Marion: County EMA has limited telephone service / without Internet
  - Dekalb: Southern LINC - 75% Operable
  - Southern LINC: 97% of the sites are operable statewide
  - Jackson County in the City of Scottsboro all phone circuits are inoperable.

### ATT

Back-up power generators have been placed in service temporarily restoring electrical service to Cellular towers in the Huntsville/Decatur area.

- **FUEL SUPPLIES:** None Reported
- **SEWAGE TREATMENT:**
- Madison County-Town of Gurley sewer lift stations does not have power. System is overflowing and ADEM is on the scene advising.
