1. CURRENT SITUATION:

A. BACKGROUND:

There were two waves of widespread severe weather on April 27, 2011. The first moved through during the early morning hours across northern portions of central Alabama producing widespread damaging straight line winds and isolated tornadoes. The second wave involved numerous supercell thunderstorms and produced long lived, strong to violent tornadoes across the northern two-thirds of central Alabama. There was widespread and catastrophic damage in several locations throughout the State.

CURRENT STATUS/EVENTS:

Tuesday: Showers and possibly a thunderstorm. Temperature falling to around 55 by 5pm. South wind 5 to 15 mph becoming north. Chance of precipitation is 90%.

Tuesday Night: A chance of showers before 1am. Mostly cloudy during the early evening, then gradual clearing, with a low around 38. North wind between 5 and 10 mph becoming calm. Chance of precipitation is 30%.

Wednesday: Sunny, with a high near 68. North wind between 5 and 15 mph.

B. FUTURE SUMMARY/IMPACT:

No Report at this Time

C. CASUALTIES: *To be published at a later time.*

C. IMPACT ON BUSINESSES:

- Numerous reports of businesses damaged or destroyed throughout the state. Numbers pending at this time.
- Kroger, food safety specialist, plan of action is as follows:
 1. All perishable food coolers have been roped off and stores have been informed not to sell to public.
 2. No stores encountered structural damage, only loss of electricity.
 3. Dumpsters have been contracted to bring in for disposal of perishable foods.

4. Security has been hired to guard dumpsters from theft or dumpster divers.
 5. Generators are being brought in to restore power so stores can open pharmacies and dry good areas.
- Publix Stores
 1. All stores in Alabama are open and did not suffer any structural damage
 2. They are not offering any fresh products at this time
 3. They have additional generators en route and plan on resuming full operations once power is restored

D. UTILITIES:

▪ POTABLE WATER/SEWAGE TREATMENT SYSTEMS:

There are no new deployments this operational period.

AL Rural Water Association EMC and ALNG EMC have done an excellent job of helping fill generator requests that have come in from communities throughout North Alabama. As requests for back-up power generators continued, we had to depend more heavily on resources that were available from the USACE and from Garner (a contractor). USACE staged generators at Maxwell AFB and assessment teams were made available to assist communities with their generator needs. Garner staged generators at John Hunter Park in Huntsville, AL and hook-up and re-fueling teams were available.

▪ ELECTRIC POWER:

AL Power Company

Total Customers: 1.487 million

Peak Out: 412,000

Current Out: 24,139 (1.62% of their customers)

Restoration Plan: Internal and external personnel working disaster issues in Alabama total 8,670

AL Rural Electric Association

Total Customers: 542,402

Peak Out: 232,000

Current Out: 41,215 at last report (7.6% of their customers)

Restoration Plan: Internal and external personnel working disaster issues in Alabama total 930. The loss of power to many AREA customers is directly related to the loss of TVA transmission lines.

TVA/AL Electric Cities

Majority of customers will be back on line in 2 to 3 days, however some customers will be without power for 5 to 8 days due to heavily damaged TVA towers and transmission lines. Some co-ops and municipal owned utilities are in good shape and waiting on power from TVA. Total current outages within TVA's service area now stands at 83,360 (this number does

not include the AREA customers). There are 4,000 internal and external personnel working TVA related issues in Alabama.

Critical Facilities Without Power:

- None reported at this time

- **GAS PIPELINES:** No reported shutdowns

- **COMMUNICATIONS:**
 - Blount: County EMA is w/o Internet
